Presentation

# CREATE YOUR MOBILE APP WITHOUT CODING

## About Abtitu Academy

Abtitu Academy teaches the fundamentals of designing a mobile app, from idea, mockup, user interface to your first functional mobile app.

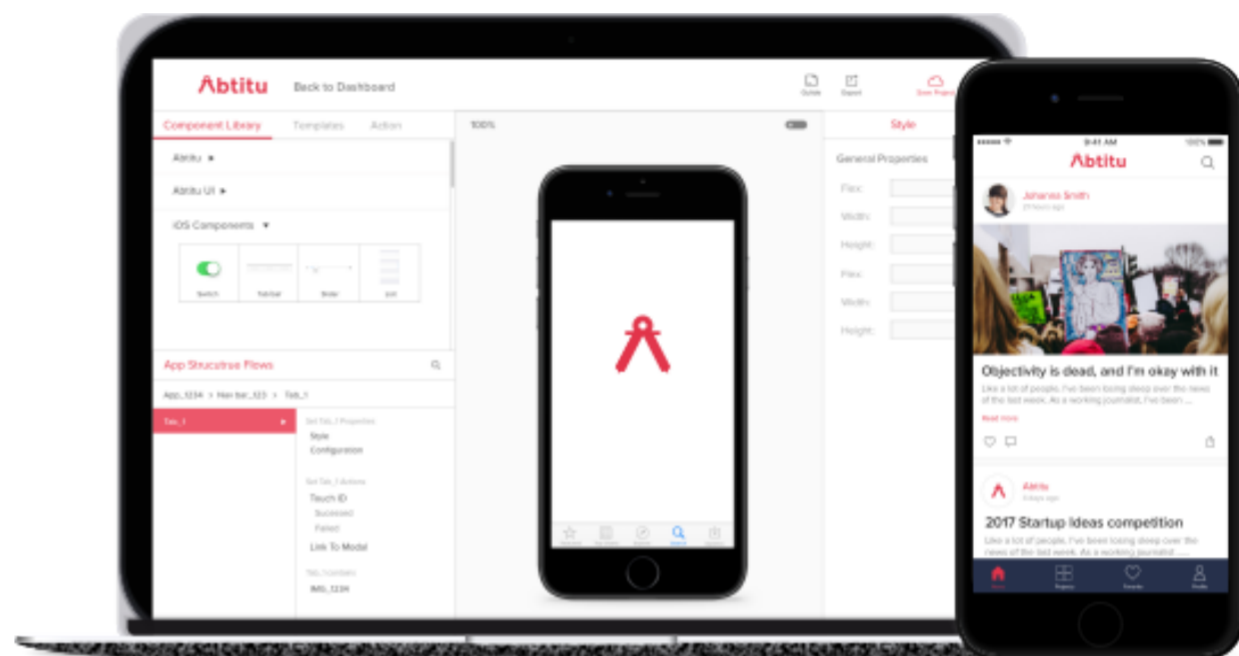

In the course, you will learn how to design, build and publish a cloud connected iOS and Android mobile apps from scratch using Abtitu platform step-by-step.

### SKILL LEVEL

● ● ● BEGINNER

### COURSE OUTLINE

-  Abtitu Platform
-  User Experience
-  Mockup
-  Design & Build

## Ease of Use, Only Drag and Drop

Simply drag and drop items to the visualized, event-driven Logic Tree to build your app!

## Developing Your Programming Logic

Now that you can focus on logic without having to worry about coding, you may practise thinking like a programmer by breaking down a solution into smaller stages.

## A Community of App-Builders

By collaborating with others, you may gain new insights and spark off innovative and ambitious projects.

### TECHNOLOGY COMPATIBILITY

#### Browser

Up-to-date version of Google Chrome is recommended. We also support Mozilla Firefox, Safari

#### Mobile App

iOS: Requires iOS 9.0 or later. Compatible with iPhone 5S or later, iPad and iPod touch  
Android: Requires Android 5.0 or later
